A Message from the Executive Director

Dear members, funders, partners, and dear friends of Bantu e.V.,

2025 has shown what Bantu e.V. is made of: we finish what we start.

The SDG4 project 'Okushoma kwa Boona' is complete. Twelve participants from Germany and Uganda spent almost two years (August 2023 to June 2025) learning together, debating, growing, and co-writing a joint final report. The barriers we identified - physical, socioeconomic, gender-related, linguistic, and institutional - are not abstract. They are the lived reality of our partners in Uganda and in Germany. I thank Engagement Global for their perseverance and their belief in this project, even through difficult phases.

The Msingi School project (P 24/200) gave 18 young women from Mbarara a vocational qualification in hairdressing and cosmetology. Seven of them were employed directly upon graduation. A 39% immediate employment rate - that is not coincidence, that is good project work. I thank the Stiftung Nord-Süd-Brücken and the Schmitz-Stiftungen, who run the EZ-Kleinprojektefonds, for their funding, and above all the Nyentsya Community Development Association (NCDA) in Mbarara - in particular the entire teaching team of the Msingi School - for the extraordinary delivery on the ground.

I thank ABI Uganda - Racheal Kekitinwa, Seith Ahabwe, Babra Amanya, Henry Talemwa Mwesigwa, and the entire team - for their continued partnership, their dedication, and their trust in Bantu e.V. This friendship and professional collaboration across continents is our most valuable asset.

To the 18 graduates of the Msingi School: you have earned this. Your certificates are not merely a piece of paper - they are proof that you have the skills, the courage, and the determination to make your way. I am proud of you.

And finally, I thank our members and supporters in Germany who have accompanied Bantu e.V. through all its highs and lows. We are already planning the next step.

With deep gratitude and a firm gaze towards the future
