PUBLISHED REPORTING ARCHIVE

At a glance

2024 was a year of structural change for Bantu e.V.: in January 2024, Tubman Network e.V. was independently registered as a non-profit association. Bantu e.V.'s role as legal grant holder ended project by project, as the projects already awarded to it were completed and accounted for (Mama Circle: funding period until 31.07.2024). The year's central focus was the first in-person exchange of the SDG4 project in Uganda (Feb./Mar. 2024), the completion of the Mama Circle project, and the launch of the BTVET project P 24/200 in Mbarara.

Correction notice · 12 November 2026

This corrected edition replaces the edition of 10 November 2026. Changes:

- The expired promise to file and publish the 2024 accounts by 31.07.2026 was replaced by a dated status (12.11.2026). Partial project amounts must not be read as annual totals.
- Mama Circle: funding period until 31.07.2024; EUR 10,008.72 is labelled as the amount for the final phase, not the total cost; total costs from the final financial report added; the claim of on-time submission was removed.
- Tubman Network: no blanket end of Bantu e.V.'s role in January 2024; Bantu e.V. remained responsible for each awarded project until its end. The reference to "three years" of hosting was removed (sponsorship from 2022).
- Black Engagement Matters: 10 resource persons and 30 organisations are targets, not verified results.
- Msingi P 24/200: EUR 11,220.74 is the financing received, not the budget (planned budget EUR 11,174.00); the role of the Schmitz-Stiftungen is described as part of the EZ-Kleinprojektefonds.

Figures marked as under reconciliation or under review are not confirmed. They will be replaced once the board and the accountant have approved the reconciled figures.

A Message from the Executive Director

Dear members, funders, partners, and friends,

If I am to be honest - and I want to be, because transparency is at the core of our work - then 2024 was the most difficult year in Bantu e.V.'s history.

The SDG4 project 'Okushoma kwa Boona' put us to a severe test. Five of six Ugandan participants received Schengen visa rejections for the planned return exchange to Germany. A co-funding partner who had given verbal commitment withdrew at short notice. We faced the question: how do you run an encounter project when the encounter fails?

I want to express, explicitly and from the heart, my thanks to Engagement Global and the entire DAJW team. They did not view this situation as a failure, but as a reality we could navigate together. The flexibility and concrete adjustments - the approval of a digital format, the extension of the project period, the solution-oriented support - were what made it possible to bring the project to an honest conclusion at all. That is what I call partnership-based funding.

At the same time, I thank the Stiftung Nord-Süd-Brücken and the Schmitz-Stiftungen, who run the EZ-Kleinprojektefonds, for funding the P 24/200 project (Msingi School of BTVET), which launched in December 2024 in Mbarara and opened the path to vocational training for 18 young women. I thank the DSEE for funding Black Engagement Matters — and the EU/Aspire Education Group for the Youth Eco Project.

I also thank Racheal Kekitinwa (ABI Uganda), who, despite all the obstacles, travelled to Germany as the sole Ugandan participant and kept the exchange alive. Her commitment was a demonstration of what genuine partnership means.

From this year I take away one important lesson: Bantu e.V. will in future only apply for projects for which written co-funding commitments are already in hand. Not from distrust - but out of responsibility towards our partners, our participants, and our funders.

With thanks to all who accompanied us through a difficult year
